

# TOWN OF FREMONT

## Application Process for SEASONAL WEIGHT EXEMPTION PERMIT

### Submitted Permits must include:

1. Completed (and Signed) *Application/Permit* (Page 1)
2. Completed (Marked) *Location Map* (Page 2)

### Please refer to the conditions stated below:

- a. A “divisible load” is any cargo being carried, which can be separated into units of legal weight without affecting the physical integrity of the load. Examples of divisible loads include: aggregate (sand, topsoil, gravel, stone), logs, scrap metal, fuel, palletized goods (including perishable goods), etc. Any special circumstances would need to be discussed with the **Fremont Town Chairman** for review.
- b. A “non-divisible load” is any cargo being carried which cannot be separated into units of less weight without affecting the physical integrity of the load. Examples of non-divisible loads include, but are not limited to, a single-pole, single column, single vehicle, bulk milk, and raw septic waste from the originating source to the final destination.
- c. All vehicles above the maximum weight are required to have a permit.
- d. This permit shall be filled out by the transporting individual, not the receiving individual. The approved permit shall be in the transporting vehicle to be valid.
- e. This permit is not valid unless signed by the **Town Chairman**. Any attempt to receive a verbal permit is not allowed.
- f. Application form shall be filled out completely, including the company representative's signature. Leaving any information blank will result in the denial of permit.
- g. The permit shall include a marked route map. The location address of the load source requested traveled route and destination address must be clearly marked on the map and listed on the permit.
- h. This permit is only valid for **Fremont Township Roads**. Any weight restrictions on State, City, Village or County roads are handled by each respective entity.

Submit the application by email to: [fremontchairman@gmail.com](mailto:fremontchairman@gmail.com).

If you have any questions or concerns, Call **Rick Marks at (715) 660-1049**

## SINGLE AXLE: SIX (6) TONS

For a single-axle vehicle, you are allowed six tons for the front steer axle and six tons for the rear-drive axle—a grand total of 12 tons, or 24,000 pounds.

## TANDEM AXLE: TEN (10) TONS

For a tandem axle vehicle, you are allowed six tons for the front steer axle and ten tons total for the rear tandem drive axles—a grand total of 16 tons, or 32,000 pounds.

## VEHICLES WITH AN ADDITIONAL TAG OR PUSHER AXLE:

If you have an additional, independent pusher axle or tag axle with suspension independent of the suspension of the tandem drive axles, you are allowed an additional six tons for that axle—a grand total of **24 tons, or 48,000 pounds**. These are typically described as tri-axle vehicles.

## STATE STATUTE 348.01 (2) (C) – DEFINITION OF TANDEM AXLE

“Tandem axle’ means any 2 or more consecutive axles whose centers are 42 or more inches apart and which are individually attached to or articulated from, or both, a common attachment to the vehicle including a connecting mechanism designed to equalize the load between axles.”

### SINGLE AXLE -12 T MAX

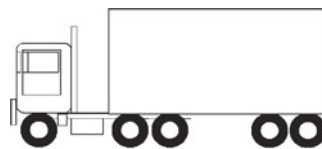

24 T MAX

### TANDEM AXLE - 16 T MAX

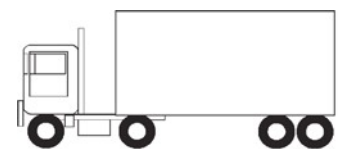

24 T MAX

### TRI-AXLE - 22 T MAX

22 T MAX

## DISCLAIMER

All vehicles traveling on Fremont Township roads are regulated by the laws of the State of Wisconsin, which govern the legal axle weights for each type of vehicle. The definitions stated above are for explanatory purposes only; it is the responsibility of the vehicle operator to understand and comply with all **Wisconsin** laws. **Printed: 15 March 2022**
